Top of emblem	HPS ↓ 15.2	seam ↓ 8.0
Top of title	HPS ↓ 18.8	seam ↓ 29.3
Centre mark from transfer left edge	15.0	13.0

HEAT PRESS

1. Pre-press the shirt 5 s to remove moisture, then 2 s to smooth the surface.
2. FRONT: mark CF on the transfer 15.0 from its left edge (inside the gap); align to the CF crease, top of emblem 15.2 below HPS.
3. BACK: crease the centre back (CB); mark 13.0 from the transfer left edge; top of emblem 8.0 below the back collar seam.
4. Keep each transfer level (square to the crease). Tack with heat tape.
5. Press 160 °C, 15 s, medium-firm. Peel per film. Finish 10 s under parchment. Press the front first; cover it with parchment when pressing the back.

Front: emblem on the wearer's RIGHT chest, title on the wearer's LEFT chest.

HPS = high point of shoulder · CF = centre front · CB = centre back
